Inserting

Relay™ 3000/4000 inserters

Get your business mail out the door fast. So you can get back to business.

The easy and accurate mail assembly your business needs

Whether it's sending out monthly bills to existing customers or direct mail to build your business, your mail is critical to the success of your company. And you don't have time to spend double-checking to make sure it's right. It just needs to be perfect the first time, every time.

The Relay 3000 and 4000 inserters are specifically designed to deliver accurate, reliable processing of up to 20,000 and 40,000 pieces a month, respectively. So you can be confident your mail is not only getting out on time, but the right information is getting to the right customer. Every single month, every single time.

Get the advantage of 2D security, previously available to only the largest mailers.

Large-scale inserting technology on a small scale

Now you can tap the full potential of your most important mail with the Relay 3000 and Relay 4000 inserters. By combining unparalleled ease of use with technology usually found in much larger inserting systems, they're designed to help your business reach its full potential too.

Enterprise-level customer data privacy capabilities

Customer data privacy concerns affect businesses of all sizes. The Relay 3000 and 4000 inserters are designed to meet the demands of an increasingly competitive marketplace and the pressure of strict compliance regulations. In fact, they're the only inserters in their class to offer the security of 2D scanning technology.

Simple. Easy. Done.

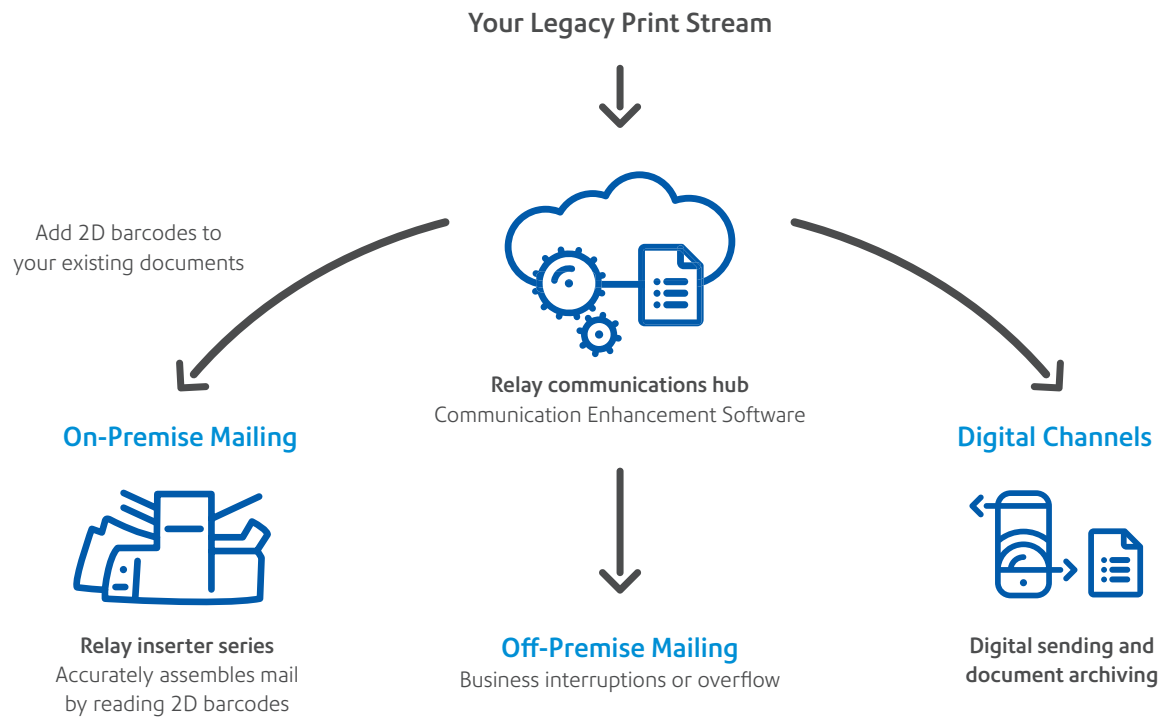

Featuring an intuitive, full-color 8" touch-screen user interface*; the Relay 3000 and 4000 inserters are easy to set up so you can be up to speed in far less time than you think. And with reliable processing, you can rest assured your mail is done right and on time.

Intuitive design and full color graphics make it easy to get mail finished accurately and on time.

* Standard on the 4000 Series, optional on the 3000 Series.

Relay™ multi-channel communications suite

Protecting private customer data is easier than you think

When it comes to your customers' personal information, "good enough" is never good enough. Fortunately, adding the security of 2D barcodes to documents is simple with

the Relay communications hub. Using existing print streams, this web-based software allows you to add 2D barcodes without redesigning your documents.

Keep your mail moving without the worry

By working together, the Relay 3000/4000 inserters and the Relay communications hub provide you with best-in-class data privacy and workflow safeguards. In the event of an unexpected business interruption

or production capacity overflow, the Relay communications hub dynamically moves your work offsite so your mail doesn't stop.
